

**Information Technology**

As an institution of higher learning that seeks to prepare men and women for lives of achievement and cultural transformation in Christ, King recognizes the importance of the appropriate use of technology in the educational experience. Further, the institution seeks to ensure that graduates obtain the information and technological skills and competencies that they will need to succeed after graduation.

All campus buildings are linked via a high-speed backbone to King's campus-wide computer network. Network and Internet access is available in every room on campus, including all residence hall rooms. All King students receive an email account. Additionally, King offers computer labs in Bristol, Kingsport, and Knoxville Hardin Valley.
